

DRAGON SLAYER SOCCER

Materials: Spot Cones (15-20), tall cones (20-25)

Game Length: 12-20 minutes

Soccer Skill: Passing and Dribbling

This game takes place in a 25 X 25 yard grid. In one corner of the grid enclose all of the kid's soccer balls with cones in the shape of a castle. One child will start inside the castle with the balls and will be designated 'Dragon Slayer'. The remaining kids (dragons) will be inside the grid without a ball. The object of the game is for the 'Dragon Slayer' to catch the Dragons who have been cursed. He catches them by dribbling the ball inside the grid and attempting to pass the ball into the feet of one of the dragons. Once a dragon is tagged by the ball the curse is broken and they too become a dragon slayer. He/she will retrieve their ball from the corner and will join the original dragon slayer in attempting to catch dragons. As the game moves along there will be more and more dragon slayers and less and less dragons. The game ends when all the dragons have been tagged by a ball.

Note: Make sure the kids are dribbling the ball as they try to get close to the dragons and not just kicking it wildly at them.
